Alkaline Hydrogen Water

About

The “alkaline” in alkaline water refers to its pH level. A pH level is a number that measures how acidic or alkaline a substance is on an approximate scale of 0 to 14 Trusted Source. For example, something with a pH of 1 would be very acidic, and something with a pH of 13 would be very alkaline. Alkaline minerals in alkaline water, such as calcium, potassium, magnesium, or iron, determine its pH

Alkaline water vs. regular water

Alkaline water has a higher pH level than regular drinking water. Some advocates of alkaline water believe it can neutralize the acid in your body, though this isn't supported by any research. Regular drinking water generally has a neutral pH of 7. Alkaline water typically has a pH of 8 or 9. However, pH alone isn't enough to impart substantial alkalinity to water. Alkaline water must contain alkaline minerals and negative oxidation-reduction potential (ORP). ORP is the ability of water to act as a pro- or antioxidant. The more negative the ORP value, the more anti-oxidizing it is.

Additional larger studies on humans are needed to explore these findings. Research is also needed to answer other unbacked claims suggesting that alkaline water has:

- pro-aging properties (via liquid antioxidants that absorb more quickly into the human body)
 - colon-cleansing properties
 - immune system support
 - hydration, skin health, and other detoxifying properties & cancer resistance
- Green tea is rich in antioxidants and has a slightly negative ORP.

If you need to reduce these health issues, provide ample concentrations of alkalizing contents to your body, and the acidic levels will plunge. You are able to accomplish this by consuming ionized water. Alkaline water that is created with the help of electricity is likely to offer valuable alkaline minerals so your body can alkalize itself. Besides, the proper hydration and the ph balance remain. They are necessary to reach excellent well-being.

FIGHT DISEASES

Ionized water is very beneficial in blood pressure, sugar and thyroid. It reduces the fluctuation and treat the organs internally to cure these diseases.

JOINTS PAIN AND DISCOMFORT

It is very common these days, ionized water helps to get rid of this in long term. Toxicant can easily be flushed out from body through this micro clustered water.

HELPS IN CURE CANCER

Probability of catching cancer is Reduced to 95% with ionized water Consumption as ionized water cleanse free radicals and activated hydrogen rejuvenate every cell of human body.

WEIGHT LOSS & GLOWING SKIN

Regular use of ionized water helps in weight loss and glowing skin along with some physical exercise.

ALKALINE IONIZED WATER PROPERTIES

GLASS OF IONIZED WATER

CUPS OF GREEN TEA

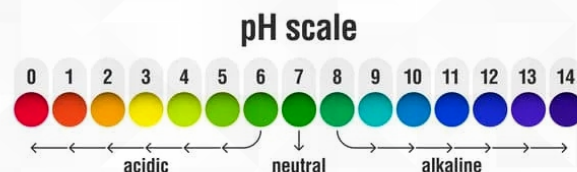

Powerfull Anti Oxidant

Alkaline ionized water is an anti-oxidizing agent, as it has a negative ORP value and it is able to donate extra electrons to neutralize the harmful effects of free radicals on the body. Most other types of water are oxidizing agents as their ORP is positive. One glass of Alkaline ionized water has more antioxidants than green tea (1Glass of ionized water = 6 cups of Green tea).

Alkalinity (pH Balancing)

The alkaline water doesn't allow to change the PH level of it and due to which it don't get acidic. It also helps to neutralize acids & bases of water & maintain its pH level.

Regular water cluster
(15-20 molecules)

Ionized water cluster
(4-6 water molecules)

Micro Clustered

The alkaline ionized water has the property to break the water clusters into smaller ones. By drinking fewer or micro clustered water you can hydrate your body more quickly and effectively, enhance energy levels, improve your overall aerobic capacity and health and prevent premature aging.

Active Molecular Hydrogen Enriched

You can improve QOL after radiation exposure with daily consumption of hydrogen-rich water. It also reduces the biological reaction to radiation-induced oxidative stress without compromising anti-tumor effects. Majorly Probability of Cancer in human body, reduces upto 95% with Active Molecular Hydrogen Enriched water.

HEALTH BENEFITS OF IONIZED WATER

- Cures Acidity and improvement in digestion.
- Better hydration and detoxification of body.
- Noticeable improvement in energy level.
- Good sleep and reduces anxiety.
- This water is best antioxidant which slows down the ageing.
- Immediate control on acidic content of body, balances uric acid, lactic acid, etc.
- Regular use of ionized water helps in weight loss and glowing skin along with some physical exercise.
- Ionized water is very beneficial in Blood Pressure, Sugar and Thyroid. It reduces the fluctuations and treat the organs internally to cure these diseases.
- Joints pain and discomfort is very common these days, ionized water helps to get rid off this in long term. Toxicants can easily be flushed out from body thru this micro clustered water.
- Probability of catching Cancer is less as ionized water cleanse free radicals and activated hydrogen rejuvenate every cell of human body.
- Ionized water cleans human body so well which leads to boosts immunity, energizes, keeps fit completely.
